Naka - The Meme With Real-World Utility

Fast. Fun. Useful.

Launch Date: Token Launch - Sept 5, 2025 | App Launch - Q4 2025

Chains: Solana + Base | Supply: 10,000,000,000 \$NAKA

The Bunny Statement

In the wild jungle of meme coins, most are all bark and no bite. They pump, they dump, and they vanish faster than a rug-pull dev's Twitter account. Naka is different. We're here to bring meme energy + real-world utility into one unstoppable ecosystem. Our purple street-smart bunny and his friends aren't just cute - They are your ticket to roadside rescues, deliveries, home services, tools, and exclusive perks. all powered by blockchain. With \$NAKA, you don't just hold a coin. You hold a membership to a fast-moving, service-powered community that rewards you for being part of it.

The Problem

- Meme coins are fun, but have no real-world use.
- Service apps exist, but none reward you in crypto or NFTs.
- Service providers deal with trust issues, slow payments, and no blockchain transparency.
- No central tools & products hub tailored to providers and customers.

The Naka Solution

We're blending meme culture with real-world services:

1. NakaMeme Token - trade, spend, and earn on Solana & Base.
2. NakaNFT - digital passes with perks like discounts, priority booking, and airdrops.
3. Naka Service App - book roadside help, deliveries, and home services - pay in crypto or fiat, earn rewards, and track your provider.
4. Naka Merch Store/Tools & Products Marketplace - buy Naka merch today, buy pro tools tomorrow - all paid in \$NAKA.

Ecosystem Overview

Meme Token (\$Naka)

- Chain: Solana + Base
- Supply: 10B- Launch: Sept 5, 2025 on Pump.fun
- Use Cases: Pay for services, NFT perks, staking rewards

NakaNFT (Live):

- Mint: <https://launchmynft.io/sol/18920>
- Benefits: Lower fees, priority booking, \$NAKA airdrops, early access

Naka Service App

- Services: Roadside, Delivery, Home Services
- Features: KYC providers, insurance checks, GPS tracking, crypto + fiat payments, AI support

Naka Store

- Phase 1: Merch
- Phase 2: Service tools & products
- Payments: \$NAKA or fiat
- NFT Perks: Discounts, early drops, pro kits

Naka Service Card

- Redeemable for Roadside, delivery & home services
- Can be used by the purchaser or transferred
- NFT holder who purchases Naka cards gets bonuses
- Cannot be redeemed for Cash or Crypto

Service Providers

- Service providers have 3 Tier Levels
- Each Tier must hold Naka to receive service calls
- Qualify for all Naka perks

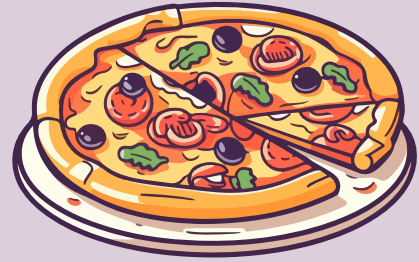

Full Token Overview

We're not here to hide bags in mystery wallets or "accidentally" send them to our cousin's Solana address. Every \$TOKEN has a mission — whether it's fueling the community, keeping devs alive on caffeine, or making sure we've got moon fuel for the long haul. 🍷🚀

Think of it like a giant 10B-slice pizza:

- Some slices go straight to the people (you degens 🤝).
- Some slices keep the kitchen running (devs & marketing).
- And a few slices get locked in the fridge for emergencies.

Now... grab a plate. 🍕

NAKANOMICS

🚀 Public Fair launch 8b \$NAKA

Everyone eats at the same time 📅
Straight into the LetsBONK.fun pool
for full-on ape mode from day one.
No VIP backdoor. No shady presales.
Just you vs. the chart. 📈🐼

🔧 App Development 0.4B \$NAKA

Code doesn't write itself, fam. 💻
This fuels app builds, new features,
bug squashing, and keeping the
devs caffeinated ☕.
Slow drip to keep the project
pumping long-term.

📣 Marketing 0.5B \$NAKA

We're not here to whisper... we're
here to yell on the timeline 🗣️
Influencers, ads, collabs, and
maybe a Times Square billboard
just because we can 🌆💡.

🛡️ Strategic Reserve 0.3B \$NAKA

Our "break glass in case of degen
panic" stash 🚒
For market stability, emergency
liquidity, or big exchange listings.
Locked up tight 🔒 until it's go
time.

👑 Team Allocation 0.5B \$NAKA

The squad's cut — but no instant
Lambos 🏎️
Locked for 12 months, then
vested like pros.
We're in this for the long haul,
not a quick getaway.

🎁 Community 0.3B \$NAKA

For airdrops, staking rewards,
contests, and random acts of
degen generosity 🎉
If you vibe with the project,
you'll feel the love back. 💖

App Development Wallet

Purpose: This wallet is dedicated only to funding the design, build, and maintenance of our app and related technology.

Initial Allocation: Receives 20% of the total supply at launch.

Lock & Release: Locked & released monthly after launch in equal portions.

What the Funds are used for?

- Core blockchain development & new feature rollouts.
- UI/UX design for mobile and desktop.
- Infrastructure (servers, cloud hosting, load balancing).
- Security audits & bug bounty programs.
- Developer tools, licenses, and API access.
- Emergency technical fixes.

Transaction tax

- Solana Deployment:
 - 0% Buy/Sell Tax
- Base Deployment:
 - 5% Buy/Sell Tax
 - 2% Reflections to holders
 - 2% Liquidity pool growth
 - 1% Marketing

Pissing on the Competition

Community & Governance

Naka runs on meme democracy – the holders have a voice:

Weekly polls to guide features and campaigns

Meme competitions with crypto & NFT prizes

Transparent updates and active engagement on Discord, Telegram, and X

Disclaimer

**\$NAKA is a meme token with real utility – but still subject to crypto volatility.
Not financial advice. Always DYOR.**
